

PHASIUM

BY MEGMEET®

**TRUSTED,
RELIABLE POWER
FOR HOSPITAL
AND HOME
HEALTHCARE**

*At Megmeet, ISO13485 Quality Management Systems Meet
High-Volume Consumer Production Material Prices*

OUR PRODUCTS

POWER SUPPLIES

- Standard and custom power supplies that meet the highest standards of efficiency and reliability

BATTERY PACKS

- Primary and rechargeable battery packs designed to differentiate your products with superior performance

BATTERY CHARGING

- Chargers and docking stations designed with the custom features demanded by medical device manufacturers

We partner with leading medical OEMs to provide trusted, reliable power solutions for hospital and home healthcare

OUR CAPABILITIES

Our 12 hectares design and manufacturing campus, conveniently located in Zhuzhou, allows Phasium to offer one of the highest levels of service in the field of energy-efficient, reliable power products.

- ✓ Our facilities are certified ISO 13485, ISO 9001 and ISO 14001
- ✓ The Manufacturing Execution System (MES) QC Tracking System provides complete automated traceability at the material, technician, machine, process and test level
- ✓ Our eleven SMT and 30 assembly lines produce over two million parts per month

CB

INDUSTRY LEADING DESIGN TEAM

With over 600 engineers, Phasium has the electrical, mechanical and software engineering horsepower to custom design your power solution or assist with complicated system-level power issues.

- We have the latest software for schematic capture, layout and thermal modelling
- Our conservative design guidelines ensure a long reliable life in the field
- DFMEA and PFMEA are included in our design process
- Our quality assurance system includes vendor accreditation qualification and certification

POWER EXPERTS

Phasium designs and manufactures high-efficiency, smart, power products and assemblies for medical and industrial markets.

Using advanced conversion techniques, conservative design rules and resourceful mechanical design, the company's competitively-priced products include standard and custom adapters, power supplies, battery packs, chargers, and docking stations.

With an ISO 13485 facility, Phasium is the premier power brand of Megmeet.
